Potential Missed Interagency Agreement Milestone for Operable Unit No 1 (881 Hillside) Corrective Measures Study/Feasibility Study

Harry Mann  
General Manager  
EG&G Rocky Flats, Inc

Our April 29 1994 memorandum (ER SRG 04818) brought to EG&G's attention that we were concerned about good cause reasons for not meeting the August 25 1994 Interagency Agreement (IAG) Enforceable Table 6 Milestones for the Operable Unit 1 (881 Hillside) Draft and Final Corrective Measures Study/Feasibility Study (CMS/FS) Reports as well as subsequent Milestones. On April 29 we requested the good cause reasons for the schedule delay. Based upon the information provided by EG&G we have found no good cause reasons for the delay. It appears that the main reasons are faulty assumptions for work durations in the February 8 1994 request for extension to the Environmental Protection Agency (EPA) and Colorado Department of Health (CDH) (94-DOE-00164). This is not a good cause reason as per the IAG. Therefore we will not request a schedule extension from the EPA and CDH.

EG&G is expected to marshal the appropriate resources to meet the existing IAG Enforceable Milestone of August 25 1994 for the Draft CMS/FS (as well as the subsequent Milestones). By June 8 1994 EG&G will present to Assistant Manager for Environmental Restoration a plan and detailed schedule on meeting the August 25 1994 Milestone.

If you have any questions please contact the Assistant Manager for Environmental Restoration Jessie Roberson at extension 4538
